B. PRINCIPLES FOR THE GUIDANCE OF THE PHYSICIAN:

- 1. There are certain guiding principles in deciding whether or not a person is physically and mentally fit to travel by air. Although each case will be considered on its own merits by the carrying airline, the following conditions are generally considered unacceptable for air travel.
- a. Very severe and critical heart conditions, such as: the severely decompensated cardiac patient or the patient who has sustained a recent coronary occlusion with myocardial infarction. Such cases are not normally eligible within six weeks of the onset and at the discretion of the carrier.
- b. Those patients with entrapped gas such as a recent pneumo-thorax or one who has had air introduced into various system recently for ventriculography.

- Psychotic patient requiring heavy sedation or restraint unless attended and special arrangements C. made, Biman will not accept psychotic passengers under any circumstances.
- d. Severe cases of otitis media with blockage of the Eustachian tube.
- e. Acute contagious or communicable disease.
- f. Pregnancy beyond thirty two (32) weeks.
- g. Persons with contagious or repulsive skin conditions.
- Recent cases of poliomyelitis unless one month has elapsed since the onset of the disease. Bulbar cases of poliomyelitis at any time unless special arrangments are made with the carrier. h.
- Persons with large mediastinal tumors, extremely large unsupported hernias, intestinal obstruction, cranial diseases involving increased pressure, fracture of the skull and those with recent fracture of i. the mandible with permanent wiring of the jaw.
- j. Recent surgical cases CABG/ANGIOPLASTY etc. with insufficient time for healing.
